Dana,

Good morning. I have an adjustment to the building permit application my wife submitted on 5/11/12. We would like to add 8 to 10 feet to the north of the addition/foundation to accommodate an exterior entrance/exit and stairway to the addition. This 10 feet would be to the north along the backside of the garage. It is a 2 car garage, so it would only go about halfway across the back of the garage. It would not change the 12' dimension, but add around 10' to the 32' dimension.

Please let me know what is necessary to proceed.

Thank you,

Mike Hoffman and Marie Sandoval
