The existing house footprint is 80' x 24' deep. Currently the garage is 36' x 24' deep. My plan is to turn the garage into living space. The new living room would be 23' x 23' in both measurement with one office room 11'6" x 11'6" and one exercise room 11'6" x 11'6". The heating system in the house is forced hot air which will be added on to into the new living space.
