Dear Mr. Miller:

As members of Royal Parke Association, we would like to propose a new and improved patio for Building 4, Unit C of Royal Park. The existing patio is 10'x 8' which consists of a combination of cement blocks that are both damaged and covered with moss as well as a handful of slate. The new and enhanced patio would consist of the following:

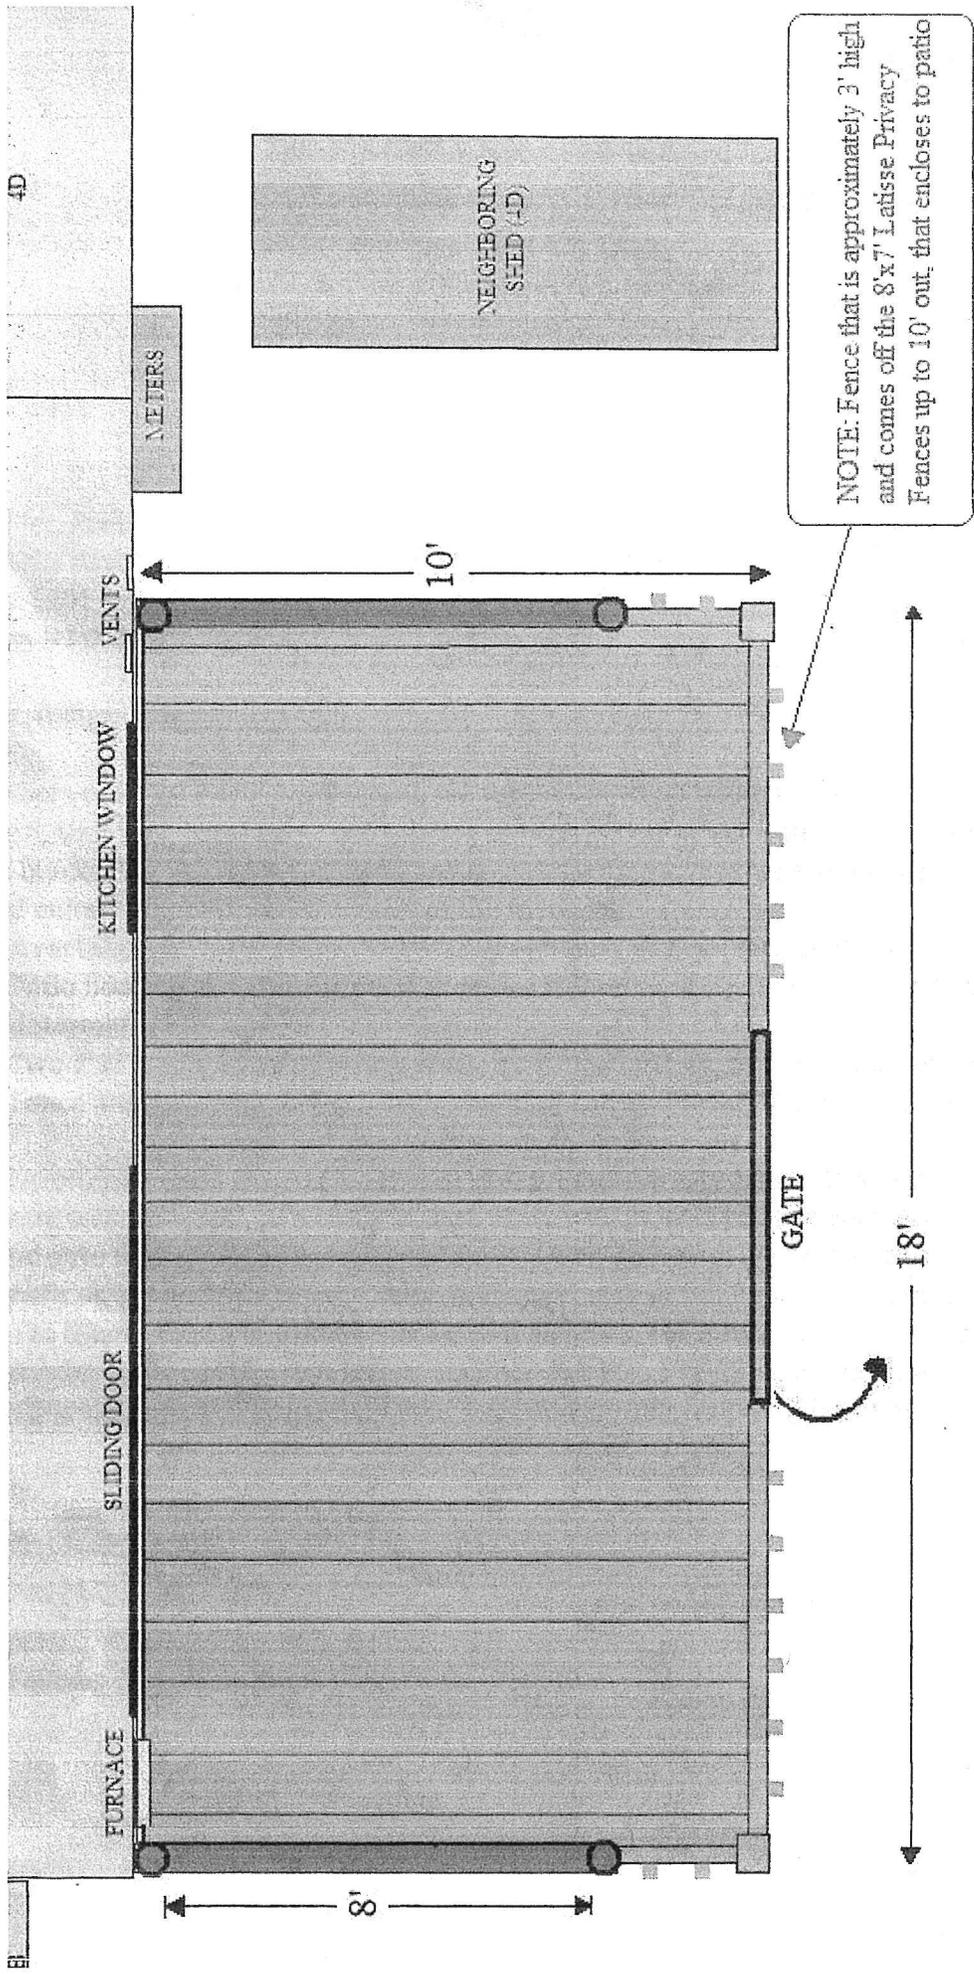

- A rectangular frame measuring 10'x18' and built of 2"x6" pressure treated wood
- Patio flooring also comprised of pressure treated wood (size of flooring to be determined)
- Two 7'x8' cedar Latisse Privacy walls, matching Unit 4A, one at either side of the patio
- Fence and gate measuring 3' high at end of Latisse Privacy Walls enclosing the patio

In conclusion, we would like to create a 10'x18' pressure treated patio that is made completely of pressure treated wood, two cedar Latisse Privacy walls, and enclose with approximately a 3' fence and gate that opens and closes as an exit. Upon approval, we believe this patio will not only benefit us as residents but the value and appearance of the Royal Park community. In addition to the description, we have included a diagram. For further clarification, please feel free to contact us at the above address, via phone at 802-345-1314, or via email to [tfellows@gmail.com](mailto:tfellows@gmail.com). We appreciate your time and consideration of this matter.

Sincerely,

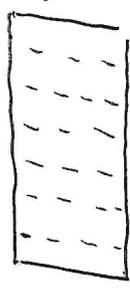

Kyle Brooks  
Trishia Fellows
