INDEPENDENT AUDITOR'S REPORT

To the Selectboard
Town of Essex, Vermont
Essex, Vermont

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Essex, Vermont as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Town of Essex, Vermont's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Essex, Vermont, as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Essex, Vermont, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Essex, Vermont's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town of Essex, Vermont's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Essex, Vermont's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedule, Schedule of proportionate share of net pension liability and schedule of contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Essex, Vermont's basic financial statements. The accompanying fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 22, 2025, on our consideration of the Town of Essex, Vermont's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Essex, Vermont's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Town of Essex, Vermont's internal control over financial reporting and compliance.

TOWN OF ESSEX, VERMONT
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2024

Management of the Town of Essex (the Town) offers readers of the basic financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2024. Readers should consider this information in conjunction with the financial statements immediately following this analysis. Please note that this section of the Basic Financial Statements is unaudited.

FINANCIAL HIGHLIGHTS

Government-wide Highlights

- The Town's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$41,561,896 (net position). Of this amount, \$8,456,027 (unrestricted net position) may be used to meet the Town's ongoing obligations. The balance of net position is made up of \$32,240,764 invested in capital assets net of related debt and \$865,105 restricted for specific purposes.
- The Town's total net position increased by \$2,023,154 (5.12%). Of this amount, the net position of the governmental activities increased by \$1,965,042 (6.38%), and net position attributable to business-type activities increased by \$58,112 (0.67%).
- The Town's total debt decreased during the fiscal year to \$4,304,683, a net decrease of principal payments totaling \$525,377 and the addition of a three-year vehicle lease for \$46,938 during the fiscal year. Of the principal payments noted, \$15,013 were in the Water & Sewer fund.

Fund Highlights

- At the end of the fiscal year, the Town's governmental funds reported a combined ending fund balance of \$9,572,806 a decrease of \$118,957 from the prior year's combined ending fund balance.
- At the end of the current fiscal year, unrestricted fund balance (the total of the committed, assigned, and unassigned components of fund balance) for the general fund was \$4,870,868 or approximately 31.15% of total general fund expenditures (excluding capital transfers) of the fiscal year budget for June 30, 2025. The Town has a fund balance policy authorizing the Town to maintain and administer an unassigned fund balance of up to 15% of the current year General Fund operating budget. The unassigned fund balance of \$2,415,963 as of June 30, 2024, is 15% of the General Fund operating budget for the fiscal year ending June 30, 2025 (\$16,106,421).

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements which are presented in three sections: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. In addition to the basic financial statements, this report also contains other and required supplementary information such as a general fund budget to actual comparison.

TOWN OF ESSEX, VERMONT
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2024

It is important for the reader to understand that, although governmental accounting resembles private sector accounting, the two differ significantly. The government-wide financial statements will be the most familiar for readers versed in private sector financial reporting. Readers should know that the financial activities of the government unit are recorded in funds. A fund is a separate set of books for each major activity. For example, the Town has a Water & Sewer Fund and a Recreation Programs Fund. These operations are referred to as business-type activities, they are supported by user fees and are recorded in enterprise funds separately from the general governmental activities which are accounted for primarily in the general fund and supported in large part by property tax revenues.

Government-Wide Financial Statements

The government-wide financial statements provide a general overview of the Town's operations presenting all data on a full accrual basis, similar to the way a private sector business would present its financial statements. There are two statements presented at the government-wide level: the Statement of Net Position and the Statement of Activities. Within each of these statements, governmental activities are presented separately from business-type activities. The governmental activities reflect the Town's basic services; including general government, public safety, public works, community development, parks and recreation, and public improvements. Property taxes finance most of these services and are supplemented by program fees, grant revenues, and other miscellaneous revenues such as investment earnings or proceeds from the sale of assets. The business-type activities reflect private-sector-type operations for which user fees recover all or a sizable portion of costs. The business-type activities of the Town include the water and sewer operations and recreation programming.

The Statement of Net Position presents information on all the Town's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The Statement of Activities reports how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused leave time).

The government-wide financial statements include not only the Town itself (referred to as the primary government), but also other legally separate entities for which the Town is financially accountable (referred to as component units). During the current year, the Town was not responsible for any entities that qualify as component units.

The government-wide financial statements are on pages 1 and 2 of this report.

Fund Financial Statements

A fund is a group of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate finance-related legal compliance. The funds of the Town are segregated into three categories: governmental funds, proprietary funds, and fiduciary funds.

TOWN OF ESSEX, VERMONT
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2024

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Unlike the government-wide financial statements however, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Consequently, the governmental fund financial statements provide a detailed short-term view that helps the reader determine the level of financial resources that are available to finance the Town's programs in the near future. Because this information does not encompass the long-term focus of the government-wide statements, additional information is provided that reconciles the governmental fund financial statements to the government-wide statements explaining the relationship between the two. The Town maintains two governmental funds - the General Fund and the Capital Projects Fund.

The basic governmental fund financial statements are on pages 3 through 6 of this report. The Town adopts an annual appropriated budget for its general fund. A budgetary comparison statement is provided on page 40 for the purpose of demonstrating compliance with the duly appropriated budget.

Reconciliation of Government-wide Financial Statements to Fund Financial Statements The governmental activities of the government-wide financial statements and the governmental funds of the fund financial statements do not use the same accounting basis or measurement focus. Because the focus of governmental funds is more limited than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. This comparison can help readers better understand the long-term impact of the Town's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

The following indicates some of the reporting differences between the government-wide financial statements and the fund financial statements.

- Capital assets used in governmental activities are not reported on governmental fund statements.
- Long-term liabilities, unless due and payable, are not included in the fund financial statements. These liabilities are only included in the government-wide statements.
- Other long-term assets that are not available to pay for current period expenditures are deferred in governmental fund statements, but not deferred on the government-wide statements.
- Capital outlay spending results in capital assets on the government-wide statements but is reported as expenditures in the fund financial statements.
- Bond proceeds provide current financial resources on the fund financial statement but are recorded as long-term liabilities in the government-wide financial statements.

Proprietary funds are used to account for a government's business-type activities at the fund level. There are two types of proprietary funds: enterprise funds and internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town maintains two enterprise funds: the Water & Sewer Fund and the Recreation Programs Fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among various functions. Currently, the Town has no internal service funds.

TOWN OF ESSEX, VERMONT
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2024

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide information for the Water & Sewer Fund and the Recreation Programs Fund separately. The proprietary fund financial statements of the Town are on pages 7 through 9.

Fiduciary funds also known as trust and agency funds, account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the programs of the Town. The accounting used for fiduciary funds is much like that used for proprietary funds. The Town maintains a Cemetery Fund. The Town's fiduciary activities are reported in a Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position on pages 10 and 11.

Notes to the Financial Statements provide additional information that is necessary to obtain a full understanding of the data provided in the government-wide and fund financial statements. The notes explain, clarify, and expand upon the financial data presented in the financial statements, and provide some additional information. The notes immediately follow the basic financial statements.

In addition to the basic financial statements and accompanying notes, certain **Supplementary Information** is provided, including a budgetary comparison schedule for the general fund, information on changes in the net pension liability, employer contributions to pensions, and investment returns. The supplementary information is immediately following the notes to the financial statements in this report.

TOWN OF ESSEX, VERMONT
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2024

As noted earlier, net position serves as a useful indicator of a government's financial position over time. At the end of the most recent fiscal year, the Town's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$41,561,896. The Town's total net position is split between governmental activities net position of \$32,783,148 and business-type activities net position of \$8,778,748.

The largest portion of the Town's total net position \$32,240,764 (77.57%) reflects its investment in capital assets (construction in progress, equipment, land, buildings, and infrastructure) net of any outstanding debt used to acquire or construct those assets. The Town uses capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay the debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

The Town's total net position includes \$865,105 (2.08%) of restricted net position. Restricted net position represents assets whose use is subject to external restrictions. The remaining balance of \$8,456,027 (20.35%) is an unrestricted net position, which may be used to meet the government's ongoing financial obligations. Included in the unrestricted net position are amounts that have been assigned for particular purposes, such as capital reserve funds and reserves for expenditures in subsequent years.

**TOWN OF ESSEX, VERMONT
MANAGEMENT’S DISCUSSION AND ANALYSIS
JUNE 30, 2024**

Governmental activities increased the Town’s net position by \$1,965,042 for the year ended June 30, 2024. Key elements of the change are as follows.

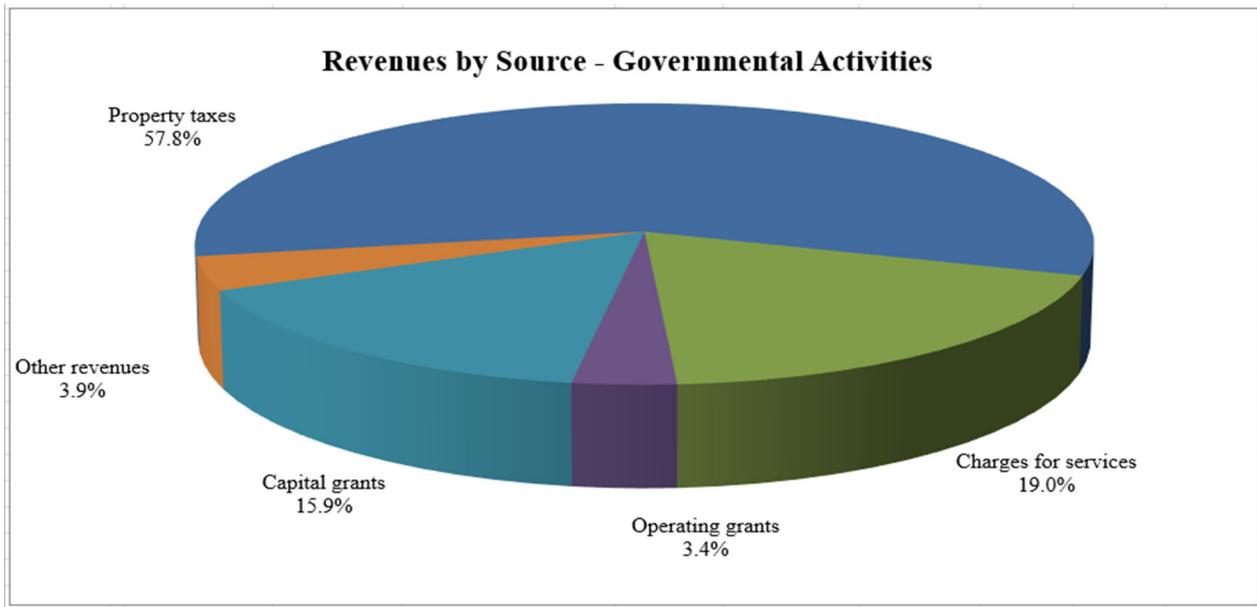

- Total governmental activities’ revenues increased by 8.6% (\$1,545,955) from 2023 to 2024. Charges for Services increased by \$2,852,012, due to Shared Services contracts with the City of Essex Junction. Capital grants and revenues increased by \$2,820,579, due primarily to the acquisition of land with ARPA funds at 80 & 90 Upper Main Street.
- Property tax revenue decreased by \$4,256,452 (27.4%) due to the separation of the Town from the City of Essex Junction and the shifting of revenue to charges for services in relation to shared service contracts.
- Total governmental activities’ expenses decreased by 5.2% (\$963,553) from 2023 to 2024. Public Safety expenses end the year at 40.7% (\$7,149,998) of total governmental activities’ expenses. Public Safety remains the largest category of expenses from year to year followed by Highways and Streets which ended the year at 24.5% (\$4,306,558) of total governmental activities’ expenses.

The following graph entitled Expense and Program Revenues – Governmental Activities, gives the reader an idea of how each major program is funded. The revenues included in this graph are program specific revenues including service contracts, user fees, operating grants, and capital grants. General revenues such as property taxes and interest earnings are excluded from the graph but are used to support the cost of each major program that is not covered by program specific revenues. The supporting data is in the Statement of Activities on page 2. As noted previously, Public Safety is the largest category of expenses in the current year and historically, followed by Highways and Streets.

Most of the governmental activities’ revenue comes from property taxes; 57.8% of total revenue or \$11,272,423. The second largest category of revenue is charges for services coming in at \$3,699,370 (19% of revenue). The next largest category of revenue is capital grants accounting for 15.9% or \$3,112,066. The distribution of revenues has shifted as the amount of taxes assessed has been replaced with charges for services, primarily from the City of Essex. The following graph shows the distribution of governmental activities revenues by source for the year ended June 30, 2024.

**TOWN OF ESSEX, VERMONT
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2024**

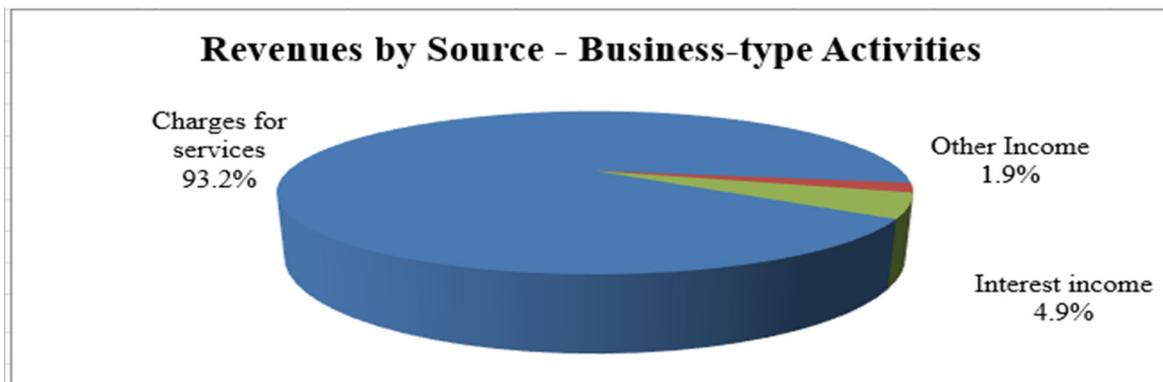

Business-type Activities

Business-type activities increased the Town's net position by \$58,112 (0.67%) during the current fiscal year. Key elements of this increase are as follows:

- Total revenues of \$3,881,607 were \$358,576 or 10.18% higher than the previous year. The increase is attributable to a \$229,022 (6.76%) increase in charges for services as well as an increase in interest income by \$133,086.
- Total expenses of \$3,823,495 reflect an increase of \$369,609 (10.7%) from the prior year. This increase is primarily driven by an increase of \$148,531 in repairs and maintenance and a \$95,848 increase in water and sewer costs.

The Town's business-type activities are supported by user fees, also referred to as charges for services of \$3,618,565 or 93.2%, interest income of \$188,656 at 4.9% and other income of \$74,386 or 1.9%.

**TOWN OF ESSEX, VERMONT
MANAGEMENT’S DISCUSSION AND ANALYSIS
JUNE 30, 2024**

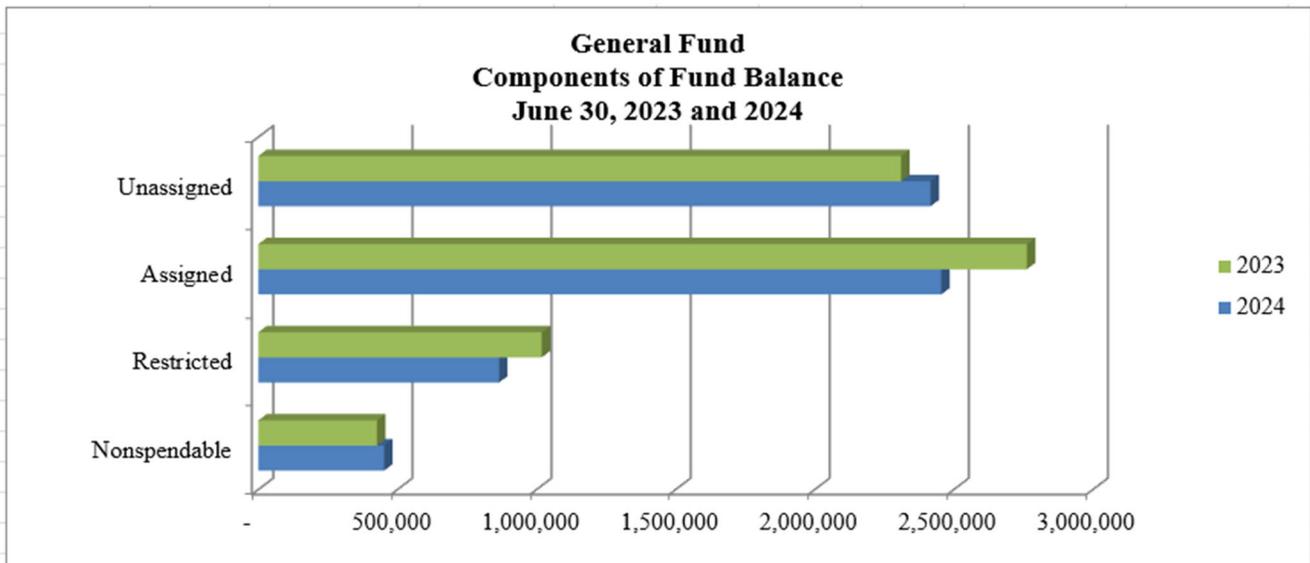

FINANCIAL ANALYSIS OF THE GOVERNMENT’S FUNDS

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Information presented and discussed in this section is specific to the fund financial statements.

Governmental Funds

The focus of the Town’s governmental funds is to provide information on the current year’s revenue, expenditures, and balances of spendable resources. Such information is useful in assessing the Town’s financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government’s net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the Town’s governmental funds (general fund and capital projects fund) reported combined ending fund balances of \$9,572,806, a decrease of \$118,957 from the prior year. Of the total fund balance amount, \$452,044 is non-spendable (prepaid items and inventories) and \$865,105 is restricted, which indicates it is not available for discretionary spending, as it is otherwise restricted by grant agreements, statutes, or debt covenants. Of the remaining amount, \$5,839,694 has been assigned by the Town for various purposes (detailed in Note 15 Fund Balances and Net Position) and unassigned fund balance is \$2,415,963.

The general fund is the chief operating fund of the Town. At the end of the year, total fund balance in the general fund was \$6,188,017, a decrease of \$330,141 from the previous year. Of this amount, \$452,044 is non-spendable and \$865,105 is restricted. Assignments totaling \$2,454,905 in the general fund are detailed in Note 15 and unassigned fund balance is \$2,415,963. As a measure of the general fund’s liquidity, it may be useful to compare total fund balance to total general fund expenditures. Total fund balance represents approximately 39.57% of total general fund expenditures (excluding capital transfers), however, this amount includes nonspendable and restricted balances which would not be available to finance general fund expenditures if necessary. The remaining categories of fund balance (committed, assigned, and unassigned) are referred to as unrestricted fund balance and are resources that

TOWN OF ESSEX, VERMONT
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2024

could be liquidated to support general fund expenditures if necessary. Unrestricted fund balance represents 31.15% of total general fund expenditures, excluding capital transfers.

The Selectboard is the body that authorizes assignments of fund balance in accordance with its fund balance policy and has the authority to make changes if they see fit. The Town's fund balance policy limits the amount of unassigned fund balance in the general fund to 15% of the current year's general fund operating budget.

General Fund Budgetary Highlights

The Town's budget for the year ended June 30, 2025 passed on the first vote at Town Meeting in March of 2024. There were no amendments made to the budget during the year.

On the revenue side, the Town recorded property tax revenue less than the amount budgeted by \$53,948 and licenses and permits were also under budget by \$33,671. Interest revenue was greater than the amount budgeted by \$398,454 while charges for services exceeded budget by \$81,607.

General government expenditures were more than budget by \$3,249,709 due primarily to the purchase of land at 80 & 90 Upper Main Street. Public safety expenditures were \$134,052 over budget as were intergovernmental expenditures by \$44,476. Culture and recreation expenditures were \$72,916 under budget, while highways and streets were underspent by \$47,731 versus budget.

During the year, the Town collected unbudgeted grants and other revenues which went to offset unbudgeted grant and other expenditures. One of the larger grant fundings was for the Community Justice Center at \$319,150 for the year. Other items in this category are federal forfeiture funds used for public safety purposes, unrestricted revenue raised by the Community Justice Center, and a small number of miscellaneous grants.

Proprietary Funds

The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Total net position in the Water & Sewer Fund is \$8,661,949, a decrease of 0.72% or \$62,447 from the previous year. Nearly half of the Water & Sewer Fund's net position is invested in capital assets net of related debt; 43.8% or \$3,794,323. This is a decrease from the previous year when the net investment in capital assets was \$3,862,639. Over time, the net book value (historical cost less accumulated depreciation) of assets decreases with the systematic allocation of the cost of said assets over their useful life by way of annual depreciation expense. Of the \$4,867,626 balance in unrestricted net position at the end of the year, \$1,787,000 is designated for future capital projects and \$17,447 is designated for prepaid expenses.

The Town's second proprietary fund is the Recreation Programs Fund which the Selectboard authorized during the fiscal year ended June 30, 2011. This fund accounts for the majority of recreation programs, which are expected to be supported by user fees. Program revenues, unlike property tax revenues, are derived from exchange transactions where the user receives a service of perceived equal value to the amount the user is willing to pay for the service. For the year ended June 30, 2024, this fund realized a net gain from operations in the amount of \$120,559. The fund has a fund balance of \$116,799.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The Town's capital assets for governmental and business-type activities as of June 30, 2024, were \$73,600,206 offset by \$37,054,759 in accumulated depreciation resulting in capital assets net of accumulated depreciation of \$36,545,447. This investment in capital assets includes land, construction in progress, buildings and improvements, machinery and equipment, and infrastructure.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2024**

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

Consolidation and Separation of Service Delivery Systems

FY25 Budgets

The above-listed factors were considered in preparing the Town of Essex's budget for the 2025 fiscal year. The approved budget resulted in a tax rate for FY25 of \$0.7361 (Town General and Capital Tax).

Rates for water and sewer operations were increased in fiscal year 2025 in response to increased costs for water purchases, sewage treatment and an increase in repairs and maintenance.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Town's finances to all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Department at 81 Main Street, Essex Jct., VT 05452. The report is available online at www.essexvt.org.

**TOWN OF ESSEX, VERMONT
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES
OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2024**

Net change in fund balances - governmental funds \$ (118,957)

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Depreciation Expense	(1,782,539)
Capital Outlay	3,955,736
Proceeds from Sale of Asset	(25,735)
Gain on Sale of Asset	97,846

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Increase in the unavailable property taxes	14,900
Decrease in the unearned and other unavailable revenue	(25,055)

Issuance and repayment of long-term debt are revenue and expenditures in the governmental funds, but the Issuance and repayment increase and decrease long-term liabilities in the statement of net position.

Repayment of long-term debt	510,364
Issuance of long-term debt	(46,938)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Pension expense	(512,491)
Accrued interest on long-term debt	5,784
Accrued compensated absences	<u>(107,873)</u>

Change in net position of governmental activities **\$ 1,965,042**

See Accompanying Notes to Basic Financial Statements.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town of Essex, Vermont, (herein the “Town”) operates under a Selectboard/Manager form of government and provides the following services: public safety (police and fire), highways and streets, culture and recreation, public improvements, planning and zoning and general administrative services.

The accounting policies adopted by the Town conform to generally accepted accounting principles (GAAP) as applicable to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing accounting and financial reporting principles. The following is a summary of the more significant accounting policies employed in the preparation of these financial statements.

1. Financial Reporting Entity

The financial statements of the Town consist only of the funds and account groups of the Town. The Town has no oversight responsibility for any other governmental entity since no other entities are considered to be controlled by or dependent on the Town. Control or dependence is determined on the basis of budget adoption, taxing authority, funding and appointment of the respective governing board.

2. Basis of Presentation

The accounts of the Town are organized and operated on the basis of fund accounting. A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts which comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are spent and the means by which spending activities are controlled.

The basic financial statements of the Town include both government-wide statements and fund financial statements. The focus of the government-wide statements is on reporting the operating results and financial position of the Town as a whole and present a longer-term view of the Town's finances. The focus of the fund financial statements is on reporting the operating results and financial position of the most significant funds of the Town and present a shorter-term view of how operations were financed and what remains available for future spending.

Government-wide Statements: The statement of net position and the statement of activities display information about the primary government, the Town. These statements report the financial activities of the overall government, excluding fiduciary activities. These statements distinguish between the governmental and business-type activities of the Town. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties. Eliminations have been made to minimize the double counting of activities between funds.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include (1) charges to applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Town's funds, including fiduciary funds. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column.

The Town reports on the following major governmental funds:

General Fund – This is the Town's primary operating fund. It accounts for all financial resources of the general government except those accounted for in another fund.

Capital Projects Fund – This capital project fund accounts for resources established to fund the Town's long-term capital plan.

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), and the acquisition or construction of general fixed assets (capital projects). The general fund is used to account for all activities of the general government not accounted for in some other fund.

The Town reports on the following major enterprise funds:

Water & Sewer Fund – This fund accounts for the operations of the Water & Sewer Department of the Town.

Recreation Programs Fund – This fund accounts for the majority of programs sponsored by the Town's Recreation Department. Programs in this fund are supported by user fees.

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis is to be financed or recovered primarily through user charges. Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of that fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Additionally, the Town reports the following fiduciary fund:

Cemetery Trust Fund – This is a private purpose trust fund that accounts for monies maintained for use in operating the Town’s cemeteries.

Fiduciary Funds are used to account for assets held by the Town as an agent for individuals, private organizations, other governments and/or other funds.

3. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes, intergovernmental revenues, sewer usage fees and water usage fees are considered susceptible to accrual. Miscellaneous revenues and fees are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned since they are measurable and available.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Measurable means the amount of the transaction can be determined, and available means the amount is collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, except for principal and interest on general long-term debt, the net pension liability, certain compensated absences and other long-term liabilities which are recognized when the obligations are expected to be liquidated or are funded with expendable available financial resources.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Property taxes, licenses, fees and interest associated with the current fiscal period are all considered susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within sixty days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the Town.

General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the Town funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net positions available to finance the program. It is the Town's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

4. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Equity

1. Cash and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. The Town maintains one primary cash account in the general fund to collect money and pay bills for all funds. When money is collected and expended, the Town records a corresponding payable or receivable to the appropriate fund. This helps manage cash and eases administrative burdens.

2. Receivables

Receivables are shown net of an allowance for uncollectible accounts for the estimated losses that will be incurred in the collection of the receivables. The estimated losses are based on the judgment of management and a review of the current status of existing receivables.

3. Internal Balances

Activities between funds that is representative of lending or borrowing arrangements that are outstanding at the end of the fiscal year are referred to as Advances to/from Other Funds. All other outstanding balances between funds are reported as Due to/from Other Funds. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4. Inventories and Prepaid Expenses

Inventory quantities are determined by physical count and are valued at the lower of cost or market. Inventory in the General Fund consists of salt, sand and various gravels. Certain payments to vendors reflect costs that are applicable to future accounting periods and are recorded as prepaid expenses. Inventories and prepaid expenses of governmental funds in the fund financial statements are offset by a nonspendable fund balance as these are not in spendable form.

5. Capital Assets

Capital assets are reported at actual cost or estimated historical cost based on appraisals or deflated current replacement cost if purchased or constructed. Contributed assets are recorded at their estimated fair value at the time received. Major outlays for capital assets and improvements are capitalized as constructed. Interest incurred during the construction phase for proprietary fund capital assets is reflected in the capitalized value of the asset constructed, net of any interest earned on the invested proceeds during the same period. Interest is not capitalized during the construction phase of capital assets used in governmental activities. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized.

Capital assets reported in the government-wide and proprietary fund financial statements are depreciated in order that the cost of these assets will be charged to expenses over their estimated service lives, generally using the straight-line method of calculating depreciation. Assets are capitalized and recorded when all of the following criteria are met:

- (1) The asset is tangible and complete.
- (2) The asset is used in the operation of the Town's activities.
- (3) The asset has a \$5,000 or greater value and useful life greater than one year at the date of acquisition.

Capital assets are not reported in the governmental fund financial statements. Capital outlays in these funds are recorded as expenditures in the year they are incurred.

6. Long-term Liabilities

Long-term liabilities include bonds, notes and capital leases payable and other obligations such as compensated absences and the net pension liability. Long-term liabilities are reported in the government-wide and proprietary fund financial statements. Governmental fund financial statements do not include any long-term liabilities as those statements use the current financial resources measurement focus and only include current liabilities on their balance sheets.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditures) until then. The Town has one type of item which arises under the accrual basis of accounting that qualifies for reporting in this category. The governmental activities, the business-type activities and the proprietary funds report deferred outflows of resources related to the Town's participation in VMERS.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has two types of items which arise under the accrual basis of accounting and three types which arise under the modified accrual basis of accounting that qualify for reporting in this category.

The governmental activities, the business-type activities and the proprietary funds report deferred inflows of resources from two sources: prepaid property taxes and deferred inflows of resources related to the Town's participation in VMERS. The governmental funds report deferred inflows of resources from three sources: prepaid property taxes, unavailable property taxes (including penalty and interest) and unavailable other revenue. Unavailable other revenue includes grant revenues earned but not received within sixty days of the end of the current period.

8. Pensions

For purposes of measuring the proportionate share of the net pension liability and the related deferred outflows and inflows of resources and pension expense, information about the fiduciary net position of the Vermont Municipal Employees' Retirement System (VMERS) pension plan and additions to or deductions from the VMERS fiduciary net position have been determined on the same bases as they are reported by VMERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

9. Net Position

Government-wide and proprietary fund net position is divided into three components:

Net Investment in Capital Assets – consists of the historical cost of capital assets less accumulated depreciation and less any outstanding debt that was used to finance those assets.

Restricted – consists of net position that is restricted by the Town's creditors, by enabling legislation, by grantors (both federal and state) and/or by contributors.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Unrestricted – all other net position is reported in this category

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to use restricted net position before unrestricted net position.

10. Fund Balance

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. Fund balances are classified as nonspendable (not in spendable form or legally required to remain intact); restricted (constraints on the use of resources are either externally imposed by creditors, grantors, or donors, or imposed by law through enabling legislation); committed (constraints on the use of resources are imposed by formal action of the voters); assigned (reflecting the Selectboard's intended use of the resources); and unassigned. Positive unassigned fund balance can only be reported in the General Fund.

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

The Town has a fund balance policy allowing it to maintain an unassigned fund balance of up to fifteen percent (15%) of the current year General Fund operating budget.

11. Estimates

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 2 EXPLANATION OF DIFFERENCES BETWEEN GOVERNMENTAL FUND AND GOVERNMENT - WIDE STATEMENTS

Governmental fund financial statements are presented using the current financial resources measurement focus and the modified accrual basis of accounting, whereas government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. These differences in the measurement focus and basis of accounting lead to differences between the governmental fund financial statements and the government-wide financial statements as follows.

Long-term revenue differences arise because governmental funds report revenues only when they are considered available, whereas government-wide statements report revenues when they are earned. Long-term expense differences arise because governmental funds report expenditures (including interest) using the modified accrual basis of accounting, whereas government-wide statements report expenses using the accrual basis of accounting.

Capital-related differences arise because governmental funds report capital outlays as current period expenditures, whereas government-wide statements report depreciation as an expense. Further, governmental funds report the proceeds from the sale of capital assets as another financing source, whereas government-wide statements report the gain or loss from the sale of capital assets as revenue or expense.

Long-term debt transaction differences arise because governmental funds report proceeds of long-term debt as other financing sources and principal payments as expenditures, whereas government-wide statements report those transactions as increases and decreases in liabilities, respectively.

Pension related differences arise because governmental funds report the current year's required employer contributions as current period expenditures, whereas government-wide statements report those transactions as deferred outflows of resources. In addition, the accrual for the Town's proportionate share of the VMERS net pension liability is recorded in the government-wide financial statements along with the related deferred inflows and outflows of resources.

NOTE 3 BUDGETARY INFORMATION

The Town's General Fund is the only fund that must legally adopt a budget. As such, no comparison of actual to budget revenues, expenditures and changes in fund balance is presented for any other fund.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 4 CASH AND CASH EQUIVALENTS

Cash and cash equivalents at June 30, 2024 consisted of the following:

	Book Balance	Bank Balance
Insured by the FDIC	\$ 691,440	\$ 691,440
Insured by Deposit Surety Bond	14,182,287	13,676,015
Uninsured	-	21,574
Petty Cash	1,545	-
Total Deposits	\$ 14,875,272	\$ 14,389,029

The difference between the book and bank balance is due to reconciling items such as deposits in transit and outstanding checks.

The Town generally maintains one cash account in the General Fund to pay expenditures and receive payments for efficiency. All interfund balances resulted from the time lag between the dates that (1) reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) repayments between funds are made.

The Town’s general fund checking account and cash management account are insured under sweep accounts. The coverage with Community Bank, NA, is in the full amount of the bank balance at the close of business on any given day if the bank were to fail. The funds swept from the account are secured by a perfected security interest in purchased securities and therefore would not be considered deposits with the bank.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of failure of the counter-party (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investments or collateral securities that are in possession of another party. The Town's policy only allows deposits in banks that are FDIC insured and agree to collateralize amounts in excess of FDIC limits. The Town has no investments subject to credit risk.

Interest Rate Risk

Interest rate risk is the risk that changes in market rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The Town has no investments subject to interest rate risk disclosure.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 4 CASH AND CASH EQUIVALENTS (continued)

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The Town's policy does not allow investment in securities that are subject to credit risk unless issued by the Federal Government.

Concentration of Credit Risk

The Town has no limit on the amount that they may invest with any one issuer. As June 30, 2024, the Town is not exposed to concentration of credit risk.

NOTE 5 RECEIVABLES

Receivables at June 30, 2024, as reported in the statement of net position, net of applicable allowances for uncollectible accounts, are as follows.

	<u>Governmental Activities</u>	<u>Business-Type Activities</u>	<u>Total</u>
Delinquent Taxes	\$ 258,711	\$ -	\$ 258,711

	<u>\$ 351,195</u>	<u>\$ 1,295,593</u>	<u>\$ 1,646,788</u>

Property taxes attach as an enforceable lien on property as of September 16th and March 16th. Taxes are levied in August and payable on September 15th and March 15th. The Town bills and collects its own taxes. Town property tax revenues are recognized when levied to the extent they result in current receivables. Current receivables are defined as receivables which are due or past due, and receivable within the current period and collected no later than sixty days after the close of the current period. Taxes receivable that remain uncollected as of August 31, 2024 have been recorded as unavailable property tax revenue, a deferred inflow of resources, with a corresponding decrease in current year tax revenues. Unavailable property tax revenue amounted to \$191,000 at June 30, 2024.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 6 NOTES RECEIVABLE

The Town received a \$490,000 Vermont Community Development Program Grant award during the fiscal year 2008. This grant was loaned to the Essex Senior Housing Limited Partnership to assist in the acquisition of land and construction of 48 new senior housing units. The loan is deferred for 30 years and bears no interest. As such, the Town has recorded an allowance for the entire amount.

The Town received a \$510,447 Vermont Community Development Program Grant award during the fiscal year 2012. This grant was loaned to the Cedar's Edge Apartments Limited Partnership to assist in the acquisition of an affordable housing development located on 47 Susie Wilson Drive in Essex, Vermont. The loan is deferred for 30 years and bears no interest. As such, the Town has recorded an allowance for the entire amount.

	<u>\$ 113,845</u>	<u>\$ 9,289</u>	<u>\$ 123,134</u>

Total interest expense paid for the year ended June 30, 2024 was \$178,124 in the governmental activities funds and \$2,502 in the business-type funds.

NOTE 11 DEFERRED OUTFLOWS OF RESOURCES

Deferred outflows of resources on the Government-wide financial statements related solely to the Town's participation in VMERS with \$1,843,391 attributable to Governmental Activities and \$162,004 attributable to Business-Type Activities.

NOTE 12 UNEARNED REVENUE

Unearned revenue in the General Fund consists of \$130,937 in police department equitable sharing funds, \$230,152 in remaining ARPA funds, \$2,674 in various other funds received in advance and an additional \$14,020 of pool fees recorded in the general fund. The revenue will be recognized as related expenses are incurred. Total Unearned Revenue in the General Fund is \$377,783.

Unearned revenue in the Recreation Programs Fund of \$55,923 consists of funds collected for providing scholarships (\$9,944) and fees collected for FY 2025 summer programs (\$45,979). This revenue will be earned as related expenses are incurred.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 13 DEFERRED INFLOWS OF RESOURCES

Deferred inflows of resources in the General Fund consists of \$191,000 in delinquent property taxes, penalties and interest on those taxes that were not collected within sixty (60) days after year-end as these would not be available to liquidate current liabilities. Deferred inflows of resources also include \$41,211 of prepaid property taxes. Total deferred inflows of resources in the General Fund are \$232,211.

Deferred inflows of resources in the Governmental Activities consist \$41,211 of prepaid property taxes and \$156,719 related to the Town’s participation in VMERS. Deferred inflows of resources in the Business-Type Activities consist of \$13,773 related to the Town’s participation in VMERS.

NOTE 14 FUND BALANCES AND NET POSITION

Fund balances are segregated to account for resources that are either not available for expenditure in the future or are legally set aside for a specific future use. The Town has implemented GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, which enhances the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying existing governmental fund type definitions.

Governmental fund balances are classified as: nonspendable (not in spendable form or legally required to remain intact); restricted (constraints on the use of resources are either externally imposed by creditors, grantors or donors, or imposed by law through enabling legislation); committed (constraints on the use of resources are imposed by formal action of the voters); assigned (reflecting the Selectboard’s intended use of resources); and unassigned.

Reservations of fund balances of governmental funds are created to either (1) satisfy legal covenants that require that a portion of the fund balance be segregated or (2) identify the portion of the fund balance that is not appropriable for future expenditures. Specific reservations of the fund balance accounts are summarized below.

Reservations and designations as of June 30, 2024 are as follows:

Governmental Activities

Restricted for:	
Reappraisal	\$ 776,019
Police Donations	48,349

When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the Town's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the Town's policy to use the fund balances in the following order: (1) Committed (2) Assigned (3) Unassigned.

NOTE 15 DEFINED CONTRIBUTION PLAN

Prior to January 1, 2004, all full-time employees were covered under the ICMA 401(A) Defined Contribution Plan. Under this plan the town contributes 8% and the employer contributes 3% of employee's salaries. Town contributions to the plan were \$17,567 and the employee contributions were \$6,431 for the year ended June 30, 2024.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 16 PENSION PLAN

Plan Description

The Vermont Municipal Employees' Retirement System (VMERS) is a cost-sharing, multiple-employer defined benefit pension plan that is administered by the State Treasurer and its Board of Trustees. It is designed for school districts and other municipal employees that work on a regular basis and also includes employees of museums and libraries if at least half of that institution's operating expenses are met by municipal funds. An employee of any employer that becomes affiliated with the system may join at that time or at any time thereafter. Any employee hired subsequent to the effective participation date of their employer who meets the minimum hourly requirements is required to join the system. During the year ended June 30, 2023, the retirement system consisted of 357 participating employees.

The plan was established effective July 1, 1975, and is governed by Title 24, V.S.A. Chapter 125.

The general administration and responsibility for formulating administrative policy and procedures of the retirement System for its members and their beneficiaries is vested in the Board of Trustees consisting of five members. They are the State Treasurer, two employee representatives elected by the membership of the system, and two employer representatives—one elected by the governing bodies of participating employers of the system, and one selected by the Governor from a list of four nominees. The list of four nominees is jointly submitted by the Vermont League of Cities and Towns and the Vermont School Boards Association.

All assets are held in a single trust and are available to pay retirement benefits to all members. Benefits available to each group are based on average final compensation (AFC) and years of creditable service.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

Net pension liabilities, deferred pension outflows of resources, deferred pension inflows of resources, and pension expense are all presented as of the Town's reporting date June 30, 2024 and for the Town's reporting period (the year ended June 30, 2024). These amounts are measured as of the measurement date and for the measurement period (the period between the prior and current measurement dates). GASB Statement No. 68 requires that the current measurement date be no earlier than the end of the employer's prior fiscal year. For the reporting date of the Town, the State has chosen to use the end of the prior fiscal year (**June 30, 2023**) as the measurement date, and the year ended **June 30, 2023**, as the measurement period.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 16 PENSION PLAN (continued)

The total pension liability is determined by an actuarial valuation performed as of the measurement date, or by the use of update procedures to roll forward to the measurement date amounts from an actuarial valuation as of a date no more than 30 months and 1 day earlier than the employer's most recent fiscal year-end. The State has elected to apply update procedures to roll forward amounts from an actuarial valuation performed as of July 1, 2015, to the measurement date of **June 30, 2023**.

As of **June 30, 2023**, the Town's proportionate share of the total VMERS net pension liability was 2.0128%, a decrease from 2.0709% as of **June 30, 2022**. For the year ended June 30, 2024, the Town recognized pension expense of \$717,560.

As of June 30, 2024, the Town reported deferred outflows or resources and deferred inflows of resources from the following sources.

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Changes in proportional share of contributions	\$ -	\$ 170,492
Difference between projected and actual earnings on pension plan investments	733,473	-
Difference between expected and actual experience	404,319	-
Town's required employer contributions made subsequent to the measurement date	657,466	-
Changes in assumptions	<u>210,137</u>	<u>-</u>
Total	<u>\$ 2,005,395</u>	<u>\$ 170,492</u>

Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows.

<u>Year Ended June 30</u>	
2024	\$ 390,737
2025	160,368
2026	641,510
2027	<u>(15,178)</u>
Total	<u>\$ 1,177,437</u>

Town of Essex, Vermont

NOTE 16 PENSION PLAN (continued)

Summary of System Provisions

Membership: Full time employees of participating municipalities. Municipality elects' coverage under Groups A, B, C or D provisions. The Town has elected coverage under Group C and D provisions for the year ended June 30, 2024

Credible Service: Service as a member plus purchased service.

Average Final Compensation (AFC): Group C – Average annual compensation during the highest 3 consecutive years.

Group D – Average annual compensation during the highest 2 consecutive years.

Service Retirement Allowance:

Eligibility: Group C and D – Age 55 with five (5) years of service.

Amount: Group C – 2.5% of AFC times service as a Group C member plus percentage earned as a Group A or B member times AFC.

Group D – 2.5% of AFC times service as a Group D member plus percentage earned as a Group A or B or C member times AFC.

Maximum benefit is 50% of AFC for Group C and D. The previous amounts include the portion of the allowance provided by member contributions.

Early Retirement Allowance:

Eligibility: There is no early retirement allowance for Group C. Age 50 with 20 years of Service for Group D.

Amount: Normal allowance on service and AFC at early retirement, payable without reduction to Group D members.

Vested Retirement Allowance:

Eligibility: Five (5) years of service.

Amount: Allowance beginning at normal retirement age based on AFC and service at termination. The AFC is to be adjusted annually by one-half of the percentage change in the Consumer Price Index, subject to the limits on "Post-Retirement Adjustments" described below.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 16 PENSION PLAN (continued)

Disability Retirement Allowance:

Eligibility: Five (5) years of service and disability as determined by Retirement Board.

Amount: Immediate allowance based on AFC and service to date of disability. Children's benefit of 10% of AFC payable to up to three minor children (or children up to age 23 if enrolled full-times studies) of a disabled Group D member.

Death Benefit:

Eligibility: Death after five (5) years of service.

Amount: For Group C, reduced early retirement allowance under 100% survivor option commencing immediately or, if greater, survivor's benefit under disability annuity computed as of date of death. For Group D, 70% of the unreduced accrued benefit plus children's benefit.

Optional Benefit and Death after Retirement: For Group C, lifetime allowance or actuarially equivalent 50% or 100% joint and survivor allowance with refund of contribution guarantee. For Group D, lifetime allowance or 70% contingent annuitant option with no reduction.

Refund of Contribution: Upon termination, if the member so elects or if no other benefit is payable, the member's accumulated contributions are refunded.

Post-Retirement Adjustments: Allowance in payment for at least one year increased on each January 1 by one-half of the percentage increase in the Consumer Price Index but not more than 3% for Group C and D.

Retirement Stipend: \$25 per month payable at the option of the Board of Trustees.

Member Contributions: Group C – 11.25%
Group D – 12.60%

Employer Contributions: Group C – 8.50%
Group D – 11.10%

Significant Actuarial Assumptions and Methods

Interest Rate: 7.00%, net of pension plan investment expenses, including inflation.

Salary Increases: Varying service-based rates from 0-10 years of service, then a single rate of 4.50% (includes assumed inflation rate of 2.30%) for all subsequent years.

Group D– PubS-2010 Safety Disabled Retiree Amount-Weighted Table with generational projection using Scale MP-2021.

Spouse’s Age: Females three years younger than males.

Cost-of-Living Adjustments: 1.20% for Group C and D members. The January 1, 2024, COLA is expected to be 1.10% for all groups. The January 1, 2023, COLA is 3.00% for groups C and D.

Actuarial Cost Method: Entry Age Actuarial Cost Method. Entry Age is the age at date of employment or, if date is unknown, current age minus years of service. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by salary with Normal Cost determined using the plan benefits applicable to each participant.

Assets: The valuation is based on the market value of assets as of the valuation date, as provided by the System. The System uses an “actuarial value of assets” that differs from market value to gradually reflect year-to-year changes in the market value of assets in determining the contribution requirements.

Inflation: 2.30 per year%

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 16 PENSION PLAN (continued)

Long-term Expected Rate of Return: The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic rates of return for each major asset class included in the target asset allocation as of **June 30, 2023**, are summarized in the following table:

Asset Class	Target Allocation	Expected Real Rate of
Global Equity	44.00%	5.35%
Private Equity	10.00%	7.50%
Emerging Markets Debt	2.00%	5.00%
Private & Alternate Credit	10.00%	5.50%
Non-Core Real Estate	4.00%	5.50%
Core Fixed Income	19.00%	1.50%
Core Real Estate	4.00%	3.25%
US TIPS	2.00%	1.50%
Infrastructure/Farmland	5.00%	4.25%

Discount Rate: The long-term expected rate of return on pension plan assets is 7.00%. The high quality tax-exempt general obligation municipal bond rate (20-Bond GO Index) as of the closes date prior to the valuation date of June 30, 2023, is 3.65%, as published by The Bond Buyer.

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2023. The projection of cash flows used to determine the discount rate assumed plan member and employer contributions will be made at rates set by the Board (employers) and statute (members). For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service cost of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current plan members as of June 30, 2023. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 16 PENSION PLAN (continued)

The following presents the Town’s proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the proportionate share would be if it were calculated using a discount rate that is one percent lower (6.00%) or one percent higher (8.00%) than the current rate.

Impact of a 1% Change in the Discount Rate

	<u>Discount Rate</u>	<u>Net Pension Liability</u>
1% Decrease	6.00%	\$ 9,703,666
Current Rate	7.00%	\$ 6,446,956
1% Increase	8.00%	\$ 3,770,067

Additional Information

Additional information regarding the State of Vermont Municipal Employees’ Retirement System, including the details of the Fiduciary Net Position, is available upon request from the State of Vermont.

NOTE 17 RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town maintains insurance coverage through the Vermont League of Cities and Towns Property and Casualty Inter-municipal Fund, Inc. covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the Town. Settled claims have not exceeded this coverage in any of the past three fiscal years. The Town must remain a member for a minimum of one year and may withdraw from the Fund after that time by giving sixty days’ notice. Fund underwriting and rate setting policies have been established after consultation with actuaries. Fund members are subject to a supplemental assessment in the event of deficiencies. If the assets of the Fund were to be exhausted, members would be responsible for the Fund's liabilities.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 18 LANDFILL POST CLOSURE COSTS

Landfill post closure costs were necessitated by the closure of the Town landfill in 1992 and the continuing site maintenance and testing requirements of the State of Vermont as ordered in the Closure Order. The monitoring program outlined in the Closure Order expired in May 2013. Annual water quality monitoring has continued per the request of the State of VT Solid Waste Management Program. Sufficient funds were not set aside in the tipping fee during the landfill's years of operation to cover these continuing expenses. The Town budgets on an annual basis for continued site maintenance and testing. The Town's cost of the site maintenance and testing were \$6,055 for the year ended June 30, 2024.

NOTE 19 TAX ABATEMENT

The Town has two tax stabilization agreements that qualify as a tax abatements per GASB Statement no. 77 Tax Abatement Disclosures. The Town, under the authority of the Town of Essex Selectboard Commercial/Industrial/Mixed Use Tax Stabilization Policy, entered into a ten-year tax stabilization agreement beginning in FY 2018. In exchange, the recipient agrees to keep and maintain its manufacturing operation on the property in the Town and create and maintain at least 170 jobs in the Town for the duration of the agreement. The Town has agreed to abate 100% of the municipal taxes for the first five years of the agreement. The percentage of abated taxes decreases to 80% in year 6, 70% in year 7, 60% in year 8, 40% in year 9, and 20% in year 10. The agreement includes provisions to recapture foregone property taxes if the agreement is terminated. If the years elapsed between the close of the tax year when the tax reduction was provided and the year the company became ineligible are two or less the recapture will be 100%; if years elapsed are two to four the recapture will be 50%; and if years elapsed are four to six the recapture will be 25%. This agreement applies to Town taxes only and has no impact on educational property taxes.

In FY 2022, the Town under the authority of the Town of Essex Selectboard Commercial/Industrial/Mixed Use Tax Stabilization Policy, entered into a five-year tax stabilization agreement.

In exchange, the recipient commits to maintaining 13 employees, pay livable wages with at least 25% of those employees representing new Americans, formerly incarcerated individuals and women. The Town has agreed to abate 100% of the municipal taxes for the first two years of the agreement. The percentage of abated taxes decreases to 75% in year 3 and 25% in year 4. This agreement applies to Town taxes only and has no impact on educational property taxes.

For FY 2024 the combined amount of taxes abated totaled \$47,309 for these two agreements.

Town of Essex, Vermont
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2024

NOTE 20 EXCESS OF EXPENDITURES OVER APPROPRIATIONS

Expenditures exceeded appropriations in the general fund by \$3,282,708. This was due primarily to overspending in general government and the amounts were offset by unbudgeted grant revenues.

NOTE 21 DISCLOSURE OF SUBSEQUENT EVENTS

In accordance with professional accounting standards, the Town has evaluated subsequent events through January 22, 2025, which is the date the financial statements were available to be issued. All subsequent events requiring recognition as of June 30, 2024, have been incorporated into the financial statements herein.

Town of Essex, Vermont
Schedule of Expenditures of Federal Awards
For the Year Ended June 30, 2024

NOTE A BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes the federal award activity of the Town of Essex, Vermont under programs of the federal government for the year ended June 30, 2024. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Town, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Town of Essex, Vermont.

NOTE B SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- (1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) The Town of Essex, Vermont has not elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance because no indirect costs were allowed under the federal awards.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

To the Selectboard
Town of Essex, Vermont
Essex, Vermont

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Town of Essex, Vermont, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise Town of Essex, Vermont's basic financial statements, and have issued our report thereon dated January 22, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of Essex, Vermont's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Essex, Vermont's internal control. Accordingly, we do not express an opinion on the effectiveness of Town of Essex, Vermont's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Town of Essex, Vermont's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Selectboard
Town of Essex, Vermont
Essex, Vermont

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Town of Essex, Vermont's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Town of Essex, Vermont's major federal programs for the year ended June 30, 2024. Town of Essex, Vermont's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Town of Essex, Vermont complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Town of Essex, Vermont and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Town of Essex, Vermont's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Town of Essex, Vermont's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Town of Essex, Vermont's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Town of Essex, Vermont's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Town of Essex, Vermont's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Town of Essex, Vermont's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Town of Essex, Vermont's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

A handwritten signature in cursive script that reads "Kittell Branagan" followed by a small symbol and the word "Sargent".
