Essex Country Club
Essex Country Club

Ash Trees: plant other types of trees
Educate about conservation
Biodiversity
Town Trees need protection
Protect insects
Recreation beyond athletics: CVU like arts. At EE?
Trees: deep rooted in forests
No oak trees (draw squirrels)
Historic conservation: focus on
Indian Brook: more access points (restrict bike access?)
Value of natural resources: share with people
Indian Brook overused: study this
Agricultural land: preservation policies
Forest land preserve policies
Community gardens needed
Cottage housing needed
Wetlands protect: no development
Agritourism: promote, bring people in
Outdoor recreation: expand options
Natural Resource: Policies to protect (well defined and enforced natural resource policies, strict adherence to buffer requirements, and a scenic protection manual that has clearly stated direction. Variance from stated objectives needs to be adequately researched. Such variances should be made public in a generally accessible manner.)
scenic views more accessible.
Parking: improved for natural areas
Provide folks on route 15 small trees and shrubs to improve/control the view. This is a fairly low cost fix for some bad design we presently have
Plant and protect trees: maples if possible
VAST trails for summer walking
Locking stations for E-bikes: access to secure stations
Connections for biking and walking
Rural Character - retain
X-country skiing: more interconnected trails
Dirt roads: maintain, preserve
Trees for pollinators
planting more trees, we constantly destroy the trees growing under power lines- could the young trees be transplanted?
could young trees be "scavenged" from wooded areas that are to be developed?
Trails and dog walking : more dog parks. Dog off leash an issue
Town recreation: more active town: separate from JCT
Endangered species: awareness
Wetlands: protection
Open Space on Chapin Rd
Indian Brook: invest, regular caretakers, new entry

More flexibility for dev outside of sewer core
Incenting for retaining open space
Community gardens needed: on public land
Farmers market: need regular
Garden share shed to access to produce
Community garden
Good recreational opportunities
Blue-green algae blooms in Indian Brook
Sand Hill developed recreation
Saxon Hill as natural -biking
Community Center - add
After school program - add
Community Gardens -encourage
Agricultural land: preserve
Spongy Month infestation
Invasive Species: woody Alger, EAB: Monitoring
Wildlife Corridors: identify, maintain
Farms: proactive about supporting existing
Food insecurity / independence
Farmers market:@ EE
Wetlands - identify protections
Climate change: resiliency
Streamline building permit process
Restrictions / Requirements: clear up front
Tower Ridge Road: concerns about development
Young farmers: policy to empower
Support agriculture: incentives
Farmers Market
Composting: encourage
Agriculture businesses or community gardens. Local
Farmland: subsidies
Education on recycling
Schools garden: teach kids about agriculture
Make it easy for local drop offs for composting
Conserve agricultural land for feeding people
Community gardens: more
Farms: support them, stronger language, conserve
Conservation
Community Gardens
PUDs: green space - gardens
Farmers Market
Protect species: apple Trees
Canopy
Agriculture under solar panels
Young farmers: encourage
Tax incentives to promote Agriculture
Diversity: beyond dairy and other conventional uses
Does regulation discourage agricultural uses
Signage to promote/advertise ag uses (farms, orchards, etc.)

D
