June 04, 2020

Dear Residents

As many residents along Pinecrest Drive may know, the Town of Essex has been working on a sidewalk project, with the State of Vermont, to connect the existing Town sidewalk network on Pinecrest Drive to the multi-use path on VT Route 2A. The design and Right-of-Way acquisition has been completed and the project is currently out to bid for construction. Bids will be opened Friday, June 12, 2020, and a contractor will be selected.

The Town of Essex is planning on completing the sidewalk and drainage project this construction season. That said, due to the current environment caused by COVID-19, there are a number of new rules and regulations governing construction activities that could potentially have scheduling impacts on the project. The Town has a project completion date of July 15, 2021 for this project. This will allow the selected contractor and the Town to adjust the construction schedule to limit the impacts caused by delays.

Again, the Town of Essex looks forward to completing this critical pedestrian link within our community. Although there may be delays in completing the project, the Town and selected contractor will make every effort to complete the project on budget and on time. If you have any questions regarding the Pinecrest Drive sidewalk project, please feel free to contact the Public Works office at 802-878-1344.

Sincerely;

Town of Essex
Public Works Department
